About me:

I'm a graduate of UCA where I gained a large amount of experience and knowledge from my BA in Photography. I hold a great passion for photography and a thirst to learn more. I am a very conscientious, organised and punctual person that takes a lot of pride in my work. I am an extravert that loves meeting new people and trying new things. I'm very easy to work with because of my relaxed personality in conjunction with my determination to succeed.

Another interest of mine is football, I captained my university 1st team for two years after which I was presented with the Sports Personality of the Year Award. I also coach a woman's football team. This has helped me build a strong sense of responsibility and gain leadership skills.
